# SUBJECT INDEX TO VOLUME 91

**Abdomen,** *Diagnostik des akuten Abdomens mit bildgebenden Verfahren (Diagnosis of the Acute Abdomen Employing Imaging Techniques),* 91:785-br

**Absorption**
bile acids, in ileal dysfunction or diarrhea, 23-selena-25-homocholyltaurine test, 91:1
bile salts, in pancreatic insufficiency secondary to alcoholic pancreatitis, 91:1243
intestinal cells, structural features (rat), 91:1401

**Acetylcholine,** and serotonin release in gastric interstitial fluid (rabbit), 91:1250

***N*-Acetylcysteine,** and gastric epithelial repair (rat), 91:603

**Acid secretion, gastric**
brain peptide inhibition of (dog), 91:905
ethanol and wine effects, 91:1390
in gastric glands, ethanol effects (rabbit), 91:439
and hypnosis, 91:1581-c
parietal cell stimulation state, and omeprazole inhibition (dog), 91:333
stress effects (rat), 91:554
and ultrastructural changes (rat), 91:667

**Acquired immune deficiency syndrome (AIDS),** esophageal cryptosporidiosis in child, 91:1301-cr

**Active transport,** of carnitine, in intestinal biopsy specimens, 91:10

**Adenomas**
*Adenomas and Adenomas Containing Carcinoma of the Large Bowel: Advances in Diagnosis and Therapy,* 91:1033-br
colorectal, follow-up studies, 91:256-ss

**Adenylate cyclase,** gastric, ethanol effects (rabbit), 91:439

**Adrenoceptors,** and capsaicin reduction of ileus (rat), 91:360

**Alcohol dehydrogenase,** in hepatocytes, glucagon effects (rat), 91:1271

**Aldosterone**
chronobiology of secretion, in cirrhosis, 91:683
regulation of sodium and chloride transport in distal colon (rat), 91:1227

**Algorithms,** *Decision Making in Gastroenterology,* 91:258-br

**Alkaline phosphatases,** intestinal, hepatic, and placental, ontogeny and phylogeny of (birds, fish, guinea pig, reptiles), 91:277

**Alkaline secretion,** duodenal, stress effects (rat), 91:554

**American Gastroenterological Association**
The Future of Digestive Diseases Research: Is There Cause for Concern? The Presidential Address, 91:797
list of available training programs, 91:495
Our New President—Douglas B. McGill, M.D., 91:273

**Amino acids,** jejunal, nonspecific uptake (rat), 91:49

***p*-Aminobenzoic acid (PABA) test,** *N*-benzoyl-tyrosyl-, reversibility of chronic pancreatic failure, 91:17

**γ-Aminobutyric acid,** and gastrin and somatostatin release from antrum (rat), 91:1221

**5-Aminosalicylic acid,** topical rectal treatment in ulcerative colitis, effects on prostaglandin $E_2$ and leukotriene $B_4$, 91:837

**Amylase,** intraluminal, inhibition effects on starch digestion and postprandial gastrointestinal function, 91:41

**Anatomy,** countercurrent mechanisms in gastrointestinal tract, 91:225-pa

**Androgen** hepatic receptors, circadian rhythm (rat), 91:182

**Anemia,** and linear gastric erosion, 91:338, 481-e

**Angiodysplasia** of colon, specimen angiography in, 91:725-cr

**Angiography,** specimen, in angiodysplasia of colon, 91:725-cr

**Angioplasty,** percutaneous transluminal, for acute mesenteric ischemia, 91:475-cr

**Anorectum**
ergotism, solitary rectal ulcers, 91:1123
manometry for fecal incontinence, 91:1186

**Antacids**
and fiber diet, gastric ulcer healing, 91:56
and hypergastrinemia, 91:788-c

**Antibodies**
antiidiotype, HBV vaccines without HBsAg, 91:1027-ss
low molecular weight IgM, to hepatitis B core antigen, 91:168
prostaglandin, in peptic ulcer disease, 91:71

**Antigens,** HLA-DR, on enterocytes in children with celiac disease, 91:1206

**Apomorphine,** and dopamine-induced relaxation of lower esophageal sphincter (opossum), 91:533

**Appendix,** three-dimensional organization of lymphatics (rabbit), 91:947

**Arctic trichinosis,** prolonged diarrhea, 91:938

**Ascariasis,** biliary, diagnosis and treatment of, 91:730-cr

**Ascitic fluid,** low protein, and spontaneous bacterial peritonitis, 91:1343

**Aspartame,** intestinal hydrolysis of metabolic products, 91:931

**Aspartylphenylalanine,** intestinal hydrolysis of, 91:931

**Aspirin**
gastric mucosal injury, circadian variations (rat), 91:1192
and tight junction structure of gastric mucosa (dog), 91:351

**Autoradiography,** opioid receptors in gastrointestinal tract (guinea pig, rat), 91:1084

**Bacteria**
cell wall components, liver fibrosis and granulomas, 91:1572-ss
contamination of pancreatic necrosis, 91:433, 479-e
indigenous, translocation from gastrointestinal tract after oral ricinoleic acid (mouse), 91:673
intestinal, secretory IgA in self-filling blind loops (rat), 91:1495

**Basement membrane** overlying Peyer's patches, porosity of (monkey, rat), 91:1128

**Belching,** and upper esophageal sphincter function, 91:133

**Bethanechol,** for esophageal chest pain, 91:1141

**Bicarbonate** secretion, dudodenal mucosa, 91:370

**Bile**
cholesterol distribution between mixed micelles and nonmicelles, during feeding and fasting, 91:697, 772-e
flow and cholesterol content, effect of dietary cholesterol, in hypothyroidism (rat), 91:297

pa–progress article
ra–review article
ss–selected summary

**Bile** (cont'd)
microscopy for prediction of gallstone chemistry and dissolution, 91:703
**Bile acid**
*Liver, Nutrition and Bile Acids*, 91:784-br
malabsorption, 23-selena-25-homocholyltaurine test, in ileal dysfunction and diarrhea, 91:1, 242-e
metabolism
nor- and ursodeoxycholic acid effects (rabbit), 91:189
ursodeoxycholic and chenodeoxycholic acid effects, 91:1007-pa
during pregnancy, relationship to obstetric cholestasis, 91:825
*Recent Advances in Bile Acid Research* 91:260-br, 1578-br
**Bile salts**
and gastric mucosal unstirred layer (rat), 91:913
malabsorption, in pancreatic insufficiency secondary to alcoholic pancreatitis, 91:1243
**Biliary tract**
ascariasis, ultrasonography, endoscopic retrograde cholangiopancreatography, and biliary drainage, 91:730
cirrhosis, chlorambucil for, 91:1327
percutaneous transhepatic biliary drainage, 91:1573-ss
reflex regulation of flow resistance in sphincter of Oddi (cat), 91:1364
surgery in diabetics, postoperative complications, 91:157, 245-e
**Bilirubin**
glucuronide synthesis in primate liver (monkey), 91:287
UDP-glucuronyltransferase in liver, 91:488-ss
**Biopsy**
*Biopsy Pathology of the Oesophagus, Stomach and Duodenum*, 91:1318-br
of intestine, carnitine transport in, 91:10
of rectum, in homosexual men with intestinal symptoms, 91:651, 770-e
small bowel, in infantile intractable diarrhea, 91:791-c
**Bleeding**
*Gastrointestinal Haemorrhage*, 91:1316-br
gastrointestinal, in hereditary hemorrhagic telangiectasia, 91:1079
variceal, end-to-side portacaval shunt and distal splenorenal shunt, 91:802, 1022-e
**Blood flow**
during cold restraint (rat), 91:141
countercurrent mechanisms in gastrointestinal tract, 91:225-pa
in nonocclusive mesenteric ischemia, papaverine comparison with selective vasodilators (dog), 91:79
**Bombesin**
and growth of digestive organs, 91:1035-c
inhibition of gastric acid secretion (dog), 91:905
**Bone** metastases in malignant gastrinoma, 91:1179
**Book Reviews**
*Adenomas and Adenomas Containing Carcinoma of the Large Bowel: Advances in Diagnosis and Therapy*, 91:1033

**Brain** edema, with galactosamine-induced fulminant hepatitis (rabbit), 91:1347
**Brainstem tumor,** emesis, and upper gut dysmotility, 91:265-c
**Breath tests**
hydrogen
amylase inhibition and starch digestion, 91:41
and oropharyngeal microflora, 91:853
xylose, lactulose, and glucose, in small intestinal bacterial overgrowth, 91:1447
**Budd–Chiari syndrome**
magnetic resonance imaging diagnosis, 91:1289-cr
membranous obstruction of inferior vena caval thrombosis, 91:219-cr

**Cachexia,** hormonal basis for, 91:250-ss
**Caerulein,** and biliary colic pain, 91:522-c
**Calcitonin** inhibition of gastric acid secretion (dog), 91:905
**Calcium**
binding, in intestinal subcellular membranes (rat), 91:34
and contractility of nematode-infected jejunum (rat), 91:1462
gallstone surface, impaired dissolution by chenodiol, 91:713

intestinal transport of, ethanol effects (chicken), 91:870
***Campylobacter jejuni*, dysentery in children, 91:1569-ss**
**Cancer**
*Familial Cancer. 1st International Research Conference on Familial Cancer, Basel, September 1985*, 91:785-br
*Frontiers in Gastrointestinal Cancer*, 91:258-br
gastric, incidence after gastric surgery, 91:1309-ss
in ulcerative colitis, DALM in surveillance of, 91:266-c
**Cancer family syndrome**, marker studies, 91:581
**Capillaries**, intestinal, charge selectivity, role of polycations (rat), 91:1443
**Capsaicin**
gastric mucosal protection (rat), 91:975
and ileus (rat), 91:360
**Carbohydrate antigen 19-9**, in pancreatic disorders, 91:576
**Carbohydrates**
*Metabolic Effects of Dietary Carbohydrates*, 91:1576-br
postprandial tolerance, and amylase inhibition, 91:41
**Carboxyprothrombin**, des-gamma-, new assay for, in hepatocellular carcinoma, 91:1258, 1307-e
**Carcinoid syndrome**, serotonin release after food and pentagastrin, 91:612
**Carcinoma**
in colonic polyps, endoscopic polypectomy for, 91:419
colorectal, multiple foci, in Crohn's ileocolitis, 91:269-c
gastrointestinal and pancreatic, hormone effects, 91:1002-ctt
hepatocellular, des-gamma-carboxyprothrombin assay, 91:1258, 1307-e
superficial squamous, of esophagus, 91:1456
**Carnitine** transport, in intestinal biopsy specimens, 91:10
**Case Reports**
Bone metastases in malignant gastrinoma, 91:1179
Celiac sprue complicated by lymphoma presenting with multiple gastric ulcers, 91:740
Colonic varices, unusual case diagnosed by radionuclide scanning, 91:1543
Diffuse somatostatin-immunoreactive D-cell hyperplasia in stomach and duodenum, 91:733
Emergence of malignant lesions within adenomatous hyperplastic nodule in cirrhotic liver, 91:198
Esophageal cryptosporidiosis in child with acquired immune deficiency syndrome, 91:1301
Fragile papilloma (papillary adenoma) of gallbladder. Cause of recurrent biliary colic, 91:999
Gastrointestinal involvement complicating Stevens–Johnson syndrome, 91:469
Liver abscess in Crohn's disease. Report of four cases and review of literature, 91:987
Magnetic resonance imaging diagnosis of Budd–Chiari syndrome, 91:1289
Methyl *tert*-butyl ether fails to dissolve retained radiolucent common bile duct stones, 91:1296
Monozygotic triplets with Crohn's disease of colon, 91:1553
Neurologic syndrome associated with vitamin E deficiency in primary biliary cirrhosis, 91:209
Pathological findings of lymphangiectasia of large intestine in patient with protein-losing enteropathy, 91:719
Primary malignant melanoma of gallbladder, metastatic to common bile duct, 91:214
Primary sclerosing cholangitis associated with hyperimmunoglobulin M immunodeficiency (dysgammaglobulinemia), 91:464
Radiation-induced intestinal pseudoobstruction, 91:994
Resolution of diffuse granulomatous fibrosis of liver with antituberculous chemotherapy, 91:456
Rupture of stomach after hemorrhage from gastric ulcer, 91:212
Transformation of inferior vena caval thrombosis to membranous obstruction in patient with lupus anticoagulant, 91:219
Treatment of acute mesenteric ischemia by percutaneous transluminal angioplasty, 91:475
Tularemic hepatitis presenting as obstructive jaundice, 91:461
Utility of specimen angiography in angiodysplasia of colon, 91:725
**Celiac disease**
and gastrointestinal lymphoma, 91:740-cr
HLA-DR expression by enterocytes, 91:1206
**Charge selectivity** of intestinal capillaries, polycation effects (rat), 91:1443
**Chemotherapy**
antituberculous, for diffuse granulomatous fibrosis of liver, 91:456-cr
bone metastases in malignant gastrinoma, 91:1179-cr
*Chemotherapy of Malaria*, 91:1034-br
preoperative, in esophageal cancer, 91:1308-ss
**Chenodiol**, impaired dissolution of cholesterol gallstones, 91:713
**Children**
*Campylobacter jejuni*-associated dysentery in children, 91:1569-ss
celiac disease, HLA-DR expression by enterocytes, 91:1206
esophageal cryptosporidiosis with AIDS, 91:1301-cr
growth-impaired, and chronic inflammatory bowel disease, somatomedin-C levels, 91:830
intestinal pseudoobstruction, 91:62
**Chlorambucil**, for primary biliary cirrhosis, 91:1327
**Chloride** transport in distal colon, aldosterone regulation of (rat), 91:1227
**Cholangitis**, primary sclerosing, and hyperimmunoglobulin M immunodeficiency, 91:464-cr
**Cholecystokinin**
comparison with sulfated and nonsulfated gastrin, 91:1154
and gastric emptying, 91:1310-ss
pancreatic release, trypsin effects, 91:637
and pancreozymin, role in exocrine pancreatic secretion (rat), 91:1171
release and characterization of, in jejunal cells (dog), 91:627
**Cholera**, colonic dysfunction, 91:1164, 1304-e
**Cholestasis**, obstetric, and serum bile acids during pregnancy, 91:825
**Cholesterol**
biliary, distribution between mixed micelles and nonmicelles during fasting and feeding, 91:697, 772-e
and colon cancer and polyps, 91:254-ss
dietary, and biliary cholesterol content and bile flow in hypothyroidism (rat), 91:297
gallstones, impaired dissolution by chenodiol, 91:713
metabolism, ursodeoxycholic and chenodeoxycholic acid effects, 91:1007-pa
**Chronobiology**
aldosterone secretion in cirrhosis, 91:683
of propagation velocity of migrating motor complex, 91:926
**Chyme** transit in intestinal pseudoobstruction, cisapride effects, 91:619
**Cigarettes.** *See* Smoking
**Cimetidine** and pirenzepine, in nonulcer dyspepsia, 91:149
**Circadian rhythm**
aldosterone secretion in cirrhosis, 91:683
gastric mucosal injury by aspirin or ethanol (rat), 91:1192
of hepatic estrogen and androgen receptors (rat), 91:182
propagation velocity of migrating motor complex, 91:926
**Cirrhosis**
biliary
neurologic syndrome with vitamin E deficiency, 91:209-cr

**Cirrhosis** (cont'd)
primary, chlorambucil for, 91:1327

**Sensory perception,** and esophageal chest pain, 91:845
**Serotonin**
release in gastric interstitial fluid, cholinergic modulation of (rabbit), 91:1250
release into blood after food and pentagastrin, in metastatic carcinoid tumors, 91:612
**Shock waves,** gallstone treatment, 91:781-ss
**Short bowel syndrome,** diets for high jejunostomy, 91:25
**Shunts,** portacaval
and drug disposition in patients with cirrhosis, 91:163
end-to-side, and distal splenorenal, in alcoholic liver disease and variceal bleeding, 91:802, 1022-e
parenteral glucose-lipid effects on protein kinetics (rat), 91:305
**Skin,** *Nutrition and the Skin,* 91:1575-br
**Smoking**
and esophageal epithelium (rabbit), 91:1536
and ranitidine treatment of reflux esophagitis, 91:1198
and ventilatory function in chronic peptic ulcer, 91:590
**Sodium** transport, aldosterone regulation of, in distal colon (rat), 91:1227
**Sodium butyrate,** and 1,2-dimethylhydrazine-induced intestinal neoplasia (rat), 91:596
**Sodium thiosulfate,** and microcirculatory stasis in acute gastric mucosal injury (rat), 91:1415
**Somatomedin-C,** in growth-impaired children and adolescents with chronic inflammatory bowel disease, 91:830
**Somatostatin**
corticotropin-releasing factor effects (dog), 91:884
GABA-induced release from antrum (rat), 91:1221
*Somatostatin,* 91:1317-br
**Species differences,** galanin distribution and molecular heterogeneity in human, pig, guinea pig, and rat gastrointestinal tracts, 91:877
**Sphincter**
lower esophageal
vagal blockade effects (dog), 91:890
dopamine-induced relaxation, receptor subtypes (opossum), 91:533
of Oddi, reflex regulation of flow resistance (cat), 91:1364
papillary, endoscopy of, in chronic pancreatitis, 91:409
upper esophageal, during belching, 91:133
**Spirochetosis,** in homosexual men, rectal biopsy abnormalities, 91:651
**Starch** digestion, and amylase inhibition, 91:41
**Statistics,** inadequate *t*-tests, 91:787-c
**Steatorrhea,** reversibility of chronic pancreatic failure, 91:17
**Stevens–Johnson syndrome,** gastrointestinal complications, 91:469-cr
**Stomach**
*Biopsy Pathology of the Oesophagus, Stomach and Duodenum,* 91:1318-br
brain peptide inhibition of acid secretion (dog), 91:905
continuous recording of pyloric pressure in humans, 91:268-c
epithelial damage, mucus role in repair (rat), 91:603
and esophagus, intrinsic reflexes between, 91:1568-ss
ethanol effects on acid secretion (rabbit), 91:439
GABA-induced release of gastrin and somatostatin (rat), 91:1221
gastric cell turnover, 91:265-c
gastric ulcer healing with low-dose antacids and fiber diet, 91:56
interstitial fluid, cholinergic modulation of serotonin release (rabbit), 91:1250
linear erosion, association with diaphragmatic hernia and chronic blood loss anemia, 91:338, 481-e
malignancy after gastric surgery, 91:1309-ss
midgastric transverse band in humans, 91:540
motility and blood flow, during cold restraint (rat), 91:141
mucosa
cicadian variations of injury by aspirin or ethanol (rat), 91:1192
injury, microcirculatory stasis, prevention by prostaglandin $E_2$ or sodium thiosulfate (rat), 91:1415
protection against acid, role of corticosteroids and prostaglandins (rat), 91:318
unstirred layer, and protection from bile salts (rat), 91:913
non-Hodgkin lymphoma, endoscopic ultrasonography, 91:401
parietal cell stimulation state, and omeprazole inhibition of acid secretion (dog), 91:333
pentagastrin and fasting effects (rat), 91:108
rupture, after hemorrhage from gastric ulcer, 91:212-cr

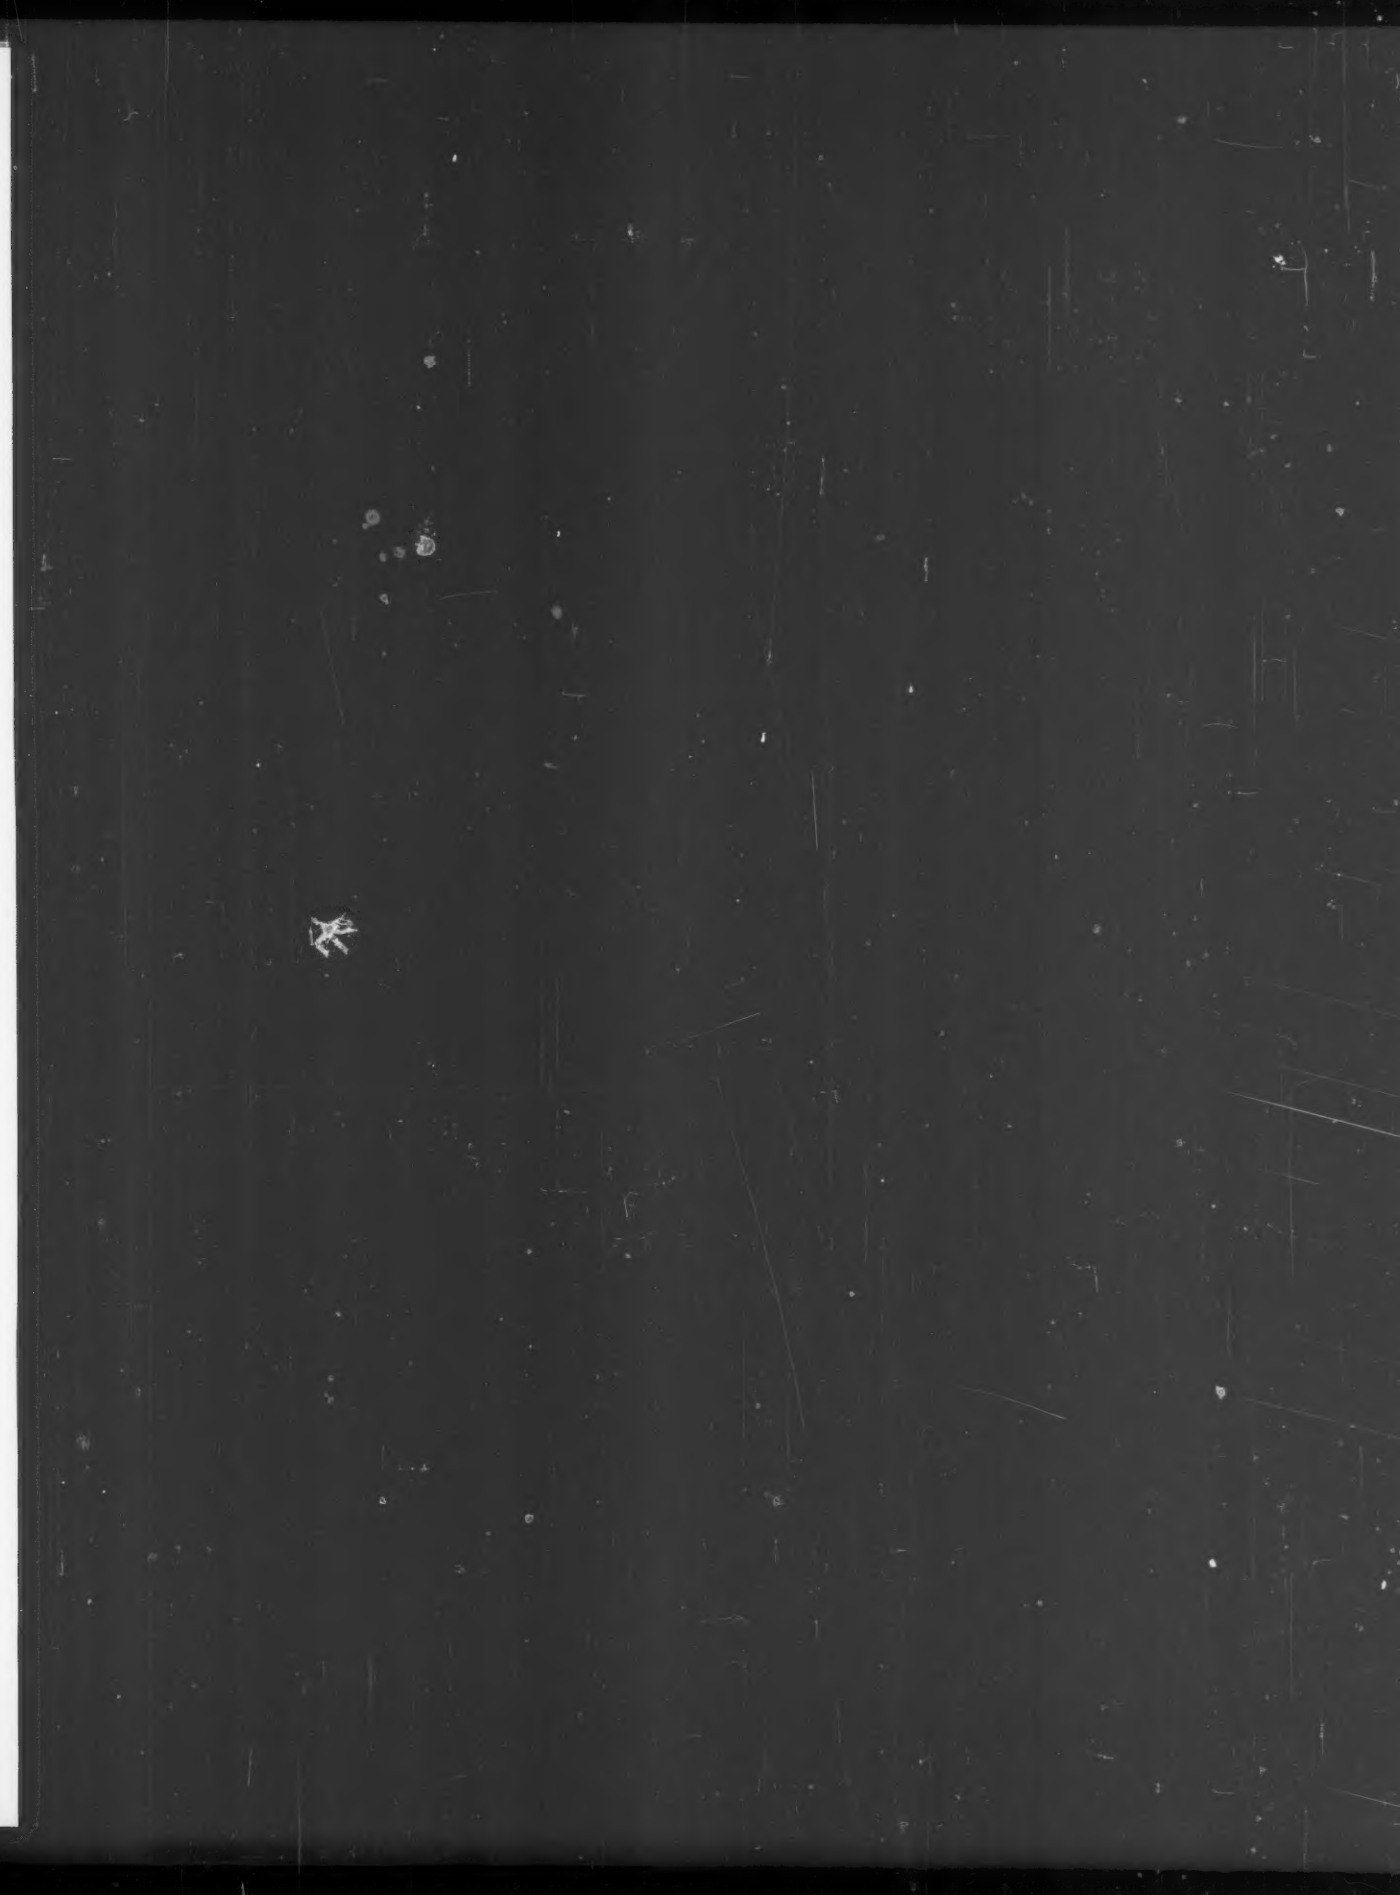
somatostatin-immunoreactive D-cell hyperplasia, 91:733
sucralfate protection, role of mucus and prostaglandins (monkey), 91:660
tight junction structure of gastric mucosa, aspirin effects (dog), 91:351
transmucosal potential difference, and lesion formation during hemorrhagic shock (rat), 91:1113
ultrastructural changes in relation to secretory changes (rat), 91:667
**Strain gauge** and manometry, measurements of antroduodenal motor activity (dog), 91:546
**Stress,** water-immersion, duodenal ulcer induction (rat), 91:554
**Sucralfate**
diagnosis of inflammatory bowel disease, 91:1027-ss
gastric protection, role of mucus and prostaglandins (monkey), 91:660
**Sulfapyridine,** in plasma after salicylazosulfapyridine, measure of intestinal transit, 91:396
**Sulfhydryls,** in gastric cytoprotection, role of metals (rat), 91:966
**Superoxide,** in hepatic macrophages and Kupffer cells (rat), 91:174
**Surgery**
*Color Atlas of Colorectal Surgery*, 91:1034-br
for gallstone pancreatitis, 91:780-ss
gastric, incidence and latency of malignancy after, 91:1309-ss
*Mastery of Surgery*, 91:262-br
*Pathology in Surgical Practice*, 91:1578-br
*Die Proximal-Selektive Vagotomie in der Behandlung der Gastroduodenalen Ulkuskrankheit*, 91:263-br

**Telangiectasia,** hereditary hemorrhagic, gastrointestinal lesions, 91:1079
**Testosterone,** and regenerating male liver (rat), 91:1263
**Thiophosphates,** protection of colon from radiation injury (rat), 91:644
**Thrombosis,** inferior vena caval, transformation to membranous obstruction with lupus anticoagulant, 91:219-cr
**Tight junctions** of gastric mucosa, aspirin effects (dog), 91:351
**Tissue culture**
3T3 cell growth factor assay, humoral trophic factors in intestinal adaptation (rat), 91:448
IMR-90 fibroblasts, *Clostridium difficile* cytotoxin inhibition of protein synthesis (hamster), 91:1147
**Transferrin** receptors, in gastrointestinal tract, relationship to body iron stores, 91:861
**Trauma,** hepatic and pancreatic, management of, 91:486-ss
**Triacylglycerol,** short- and long-chain emulsions, gastric lipase kinetics, 91:919
**Trichinosis,** arctic, prolonged diarrhea, 91:938
**Triplets,** monozygotic, with Crohn's disease of colon, 91:1553-cr
**Tripotassium dicitrato bismuthate,** and macrophage interaction (rat), 91:84
**Trophic factors,** in intestinal adaptation (rat), 91:448
**Trypsin**
immunoreactive, and reversibility of chronic pancreatic failure, 91:17
suppression of pancreatic enzyme secretion, 91:637
**Tularemia,** hepatitis presenting as obstructive jaundice, 91:461-cr
**Tumors**
autochthonous colonic, growth characteristics (rat), 91:1511
colon, oncogene alterations, 91:1503
metastatic carcinoid, food and pentagastrin effect on serotonin release, 91:612

**Ulcers**
duodenal
chronic antral gastritis, 91:1095
in water-immersion stress conditions, effect on gastric acid and duodenal alkaline secretion (rat), 91:554
and capsaicin-sensitive afferent neurons (rat), 91:975
celiac sprue complicated by lymphoma, 91:740-cr
gastric
chronic mesenteric vascular insufficiency, 91:1548-cr
healing with low-dose antacids and fiber diet, 91:56
stomach rupture after hemorrhage, 91:212-cr
gastric and duodenal, ventilatory function, 91:590
peptic
macrophage interaction with tripotassium dicitrato bismuthate (rat), 91:84
*Peptic Ulcer Disease: Basic and Clinical Aspects*, 91:1576-br
and prostaglandin antibodies, 91:71
solitary rectal, anorectal ergotism, 91:1123
**Ultrasonography**
biliary ascariasis, 91:730-cr
and diffuse hepatic disease, 91:524-c
endoscopic, of non-Hodgkin lymphoma of stomach, 91:401
gallbladder motility during total parenteral nutrition, 91:313
**Ursodeoxycholic acid**
and cholesterol and bile acid metabolism, 91:1007-pa
gallstone dissolution, microscopy prediction of outcome, 91:703
or nor-, and hepatic histology and bile acid metabolism (rabbit), 91:189

**Vaccines,** HBV, without HBsAg, immune mimicry via antiidiotype antibodies, 91:1027-ss
**Vagus nerve**
control of gas reflux and lower esophageal sphincter relaxation (dog), 91:890
and enterogastrone interaction, 91:1024-ss
**Vasodilators,** in nonocclusive mesenteric ischemia (dog), 91:79, 247-e
**Ventilatory function,** in chronic peptic ulcer, 91:590
**Vesicles**
secretory, pancreatic zymogen granules (rat), 91:1433
transcellular pathway for biliary inulin, 91:1278
**Virus,** hepadna, foscarnet inhibition of hepatitis B virus DNA (duck), 91:818
**Vitamin A,** hepatic metabolism, 91:1570-ss
**Vitamin B6,** intestinal hydrolysis of pyridoxal 5′-phosphate (rat), 91:343
**Vitamin E** deficiency, and neurologic syndrome in primary biliary cirrhosis, 91:209

**Walrus meat,** arctic trichinosis from, with prolonged diarrhea, 91:938
**Water** transport, in jejunum, CNS role in prostaglandin effects (dog), 91:1427
**Whipple's disease,** microorganisms as cause of, 91:1580-c
**Wine,** intragastric infusions, and serum gastrin and gastric acid secretion, 91:1390
**WR 2721,** protection of colon from radiation injury (rat), 91:644

**Xylose** breath tests, intestinal bacterial overgrowth, 91:1447


**Zollinger–Ellison syndrome,** bone metastases, 91:1179-cr
**Zymogen** pancreatic granules (rat), 91:1433
